Children's Diseases

Appear To Have Little Effect On Health Of Manitoba Infants

Ordinary diseases of children appear to have little effect on the health of their parents but have a marked effect on the health of the youngsters who go through them, according to a report by the Dominion Bureau of Statistics on a survey of 78,000 school-children in Manitoba.

On the other hand, strangely enough, the children of parents who have had rheumatism and cerebral spinal meningitis to healthy later and heavier than other children but the number of these cases available for study was small.

No significant difference was found between the average child who suffered from measles, whooping cough, chicken pox, German measles, mumps or scarlet fever and children with no such diseases.

The various defects seem to fall in three main classes in respect of effect on health of the children. Children with enlarged glands, called adenitis, are the cause of the greatest handicaps.

The Newest Technique

New York Surgeons Prefer The Chilling Method To Anesthesia

A new type of shockless anesthesia—accomplished by chilling a leg in a cold refrigerator rather than using a general anesthetic—was described at Pittsburgh by the American College of Physicians.

A portable refrigeration unit has been developed to produce the chill and the technique is suitable for use in a general practice, the engineers say.

The method was developed in experiments in which the leg was immersed in ice water or packed in ice with the mobile refrigeration unit.

The technique is equally valuable in cases of compound fractures and burns said, and has been tried and found satisfactory by army and navy hospitals.

SUNDAY SCHOOL LESSON

OCTOBER 4

Faith in Christ as Duty

Golden text: "Faith therefore putteth us to trial, and the trial of our faith is as fire." (1 Peter 1:7)

Scripture Reading: Ephesians 1:1-14

Explanations and Comments

First Peter 1:1-14. The apostle Peter writes to the Christians in Asia Minor. He tells them that their faith is being tested, but they should not be discouraged. They should keep their faith and love for one another.
